Election/Restrictions

1. This action is in response to the application filed on December 27, 2001. Claims 1-24 are pending.

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-12 and 20, drawn to authenticate and authorize of electronic transactions, and settle the payment by a financial institution, classified in class 705, subclass 39-44, 64-79.
- II. Claims 13-19 and 21-24, drawn to match a web search request by a financial institution, and negotiate the search result with the merchant, classified in class 707, subclass 1-6.

3. The invention are distinct, each from the other because of the following reasons:

Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because authentication and authorization of electronic transactions and payment settlement can be used for a conventional off-line purchase process other than for an internet shopping. The subcombination has separate utility such as the user search request.

Art Unit: 3621

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete **must include an election of the invention** to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Art Unit: 3621
